[Despatch Abstract.]

Medical Institutions-Government Dispensary at Naravi, South Kanara District-Transfer to Venur-Rural Dispensary at Venur-Transfer to Naravi-Ordered.

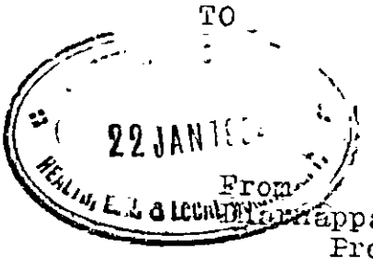
8 112 Secy. H.E.L.A.

May be considered & put up 22/1

TO

THE HON'BLE MINISTER,

PUBLIC HEALTH, MADRAS.



From

Hanmappa Adhikari,
President,
Venur Firka Project Committee,
Venur, (South Kanara)

7801

Most Respectfully sheweth,

That a government hospital sanctioned for the Venur Firka is now located in Naravi, a remote and unimportant village in the said firka. Out of the six employees sanctioned thereto only 3 are working. It is learnt that even these workers have no sufficient work asthe number of patients attending the hospital is far less than the expected number. The decrease is due to the non-importance of the place and its distance from the other largely inhabited villages in the said firka, its location near the ghauts, and want of convenient road communications from the surrounding villages. It may not be wrong to say that the said hospital is in a non-working condition and it is reliably believed that if the same state continues it is likely that the said hospital is likely to be abolished in a short time and thus deprive the entire firka of the Government Hospital so kindly sanctioned by the Government. In case of such a contingency arising, in the interests of the firka, I, the undersigned beg leave to make the following representations on behalf of the people of Venur.

As stated above, the slackness of work in the government hospital is due to the remote village selected for its location. The most suitable centre for such a hospital is Venur which has all the facilities and conveniences required for a Government Hospital. It is an important pilgrimage centre where thousands of pilgrims, even from all over India visit throughout the year and it has a flourishing trade on account

account of a much larger population than Naravi and several public institutions such as Firka Head Quarters Firka Prohibition Head Quarter, Sub Post Office and several other private institutions and a place from which road communications to Naravi, Aladangady, Moorje and Siddakatte are being constructed by the Community Project Department. Further shortly a high school is to be started at Venur and arrangements thereto is in progress. If a government hospital is located at this place it will be more beneficial to the residents of the firka as most of the villages therein are connected by roads and conveyance of the medial staff to these villages in serious cases and the patients to the hospital will be more convenient.

In view of the above circumstances, the undersigned submits that if the Government's idea is to cause any change in the location of the Government Hospital sanctioned and now located at Naravi, the choice of Venur for the said purpose may be considered in which case the Rural Dispensary now located at Venur may be transferred to Naravi so as to afford full benefits of these two institutions to the entire firka.

President,
Venur Firka Development
Committee.

The Hon'ble Sri A.B.Shetty,
Minister for Public Health,
Government of Madras,
Secretariat,
Fort St. George,
Madras.

Humble representation submitted by the villagers of Naravi and other surrounding villages in Karkala Taluk in South Kanara District.

Dated 5-3-1954.

Respected Sir,

Subject:- Government Hospital - Naravi village - Karkala Taluk - South Kanara District.

The Government were pleased to open a hospital in Naravi village, Karkala Taluk in South Kanara District on 6-6-1953 much to the relief of the people of Naravi and the surrounding villages who were agitating for -- medical relief from a long time. Dr. Menon who was the first medical officer sent to this hospital remained -- here for about one month after which he was transferred from this place to Mangalore When he was in charge of this hospital lot of people used to get medical aid and there were 3 delivery cases also in the hospital -- during his time. Subsequently no doctor was posted to this place till a few days ago when a doctor from Madras who did not know Kanarese was posted to this place; but

he left this place the next day after he arrived at Naravi without taking charge on the ground that he did not know the local language and on that account he could not pull on here.

Now we hear that an agitation is going on to -- shift the Government hospital from Naravi either to Venoor or to some other place. We pray that the hospital may not be shifted from here. If the hospital is shifted -- from this place the people of Naravi and the surrounding villages within 4 miles and whose population is 9034 --- cannot get any medical aid especially during the south-west monsoon for 5 months from June to October when the village is cut off from outside world for want of communications as the rivers around the villages have no bridges and as there are no motor or other communications during those months. As the villages are situated in Manad area without any medical facilities the Government sympathising with the difficulties and privations of the people were pleased to sanction a hospital to this place. There is a proposal before the Government to open a Land Colonisation Scheme near this place in Idu village and as such the necessity to have a hospital here is sure to arise in future also. There were 56 registered delivery cases here after the -- hospital was opened here If on account of some reasons or other the doctors are not willing to go and settle -- down in Naravi village till such time as the doctors are agreeable to serve in the hospital at least private --- practitioners or other Government doctors from Karkala or from other places may be asked to serve in the Naravi -- hospital for 2 days in a week. We pray that under any circumstances the hospital should not be shifted from ---

rrom Naravi. All communications in this connection may be sent to the address of Sri K.Krishna Bhat, President, Panchayat Board, Naravi Post, Karkala Taluk, South Kanara District, one of the signatories among us.

Yours faithfully,
K. Krishna Bhatta.

without taking charge on the ground that he did not know the local language and on that account he could not pull on here.

Now we hear that an agitation is going on to shift the Government hospital from Naravi either to Vellore or to some other place We pray that the hospital may not be shifted from here. If the hospital is shifted from this place the people of Naravi and the surrounding villages within 4 miles and whose population is 9034 cannot get any medical aid especially during the south-west monsoon for 5 months from June to October when the village is cut off from outside world for want of communications as the -- rivers around the villages have no bridges and as there are no motor or other communications during these months. As the villages are situated in Manad area without any medical facilities the Government sympathising with the difficulties and privations of the people were pleased to sanction a hospit to this place. There is a proposal before the Government to open a Land Colonisation Scheme near this place in Idu -- village and as such the necessity to have a hospital here is sure to arise in future also. There were 56 registered -- delivery cases here after the hospital was opened here. If on account of some reasons or other the doctors are not --- willing to go and settle down in Naravi village till such -- time as the doctors are agreeable to serve in the hospital at least private practitioners or other Government doctors from Karkala or from other places may be asked to serve in the Naravi hospital for 2 days in a week. We pray that under any circumstances the hospital should not be shifted from Naravi. All communications in this connection may

4-7

be sent to the address of Sri K.Krishna Bhat, President, Panchayat Board, Naravi post, Karkala Taluk, South Kanara District, one of the signatories among us.

Madras Government P.R.O.

47 Naravi village.

Date 3/6/54

Dear Panditjee, 5220-P(11)/54

I cannot keep quiet without communicating the hardships of the people in this Malnad area. The people were deeply disappointed by the Government's effort to shift the Government Hospital to Venoor village, where there is a Rural dispensary already functioning. The village is ten miles from Naravi and will be blocked by overflowing streams in the monsoon. The above hospital was opened by the State Government under the leadership of Sri. Rajagopalachari last here. Immediately the villagers evacuated two houses, repaired it and offered it rent-free, to house the hospital and the Doctor. Since then two Doctors were appointed, the first one Mr. Menon, later was transferred to the Government Hospital, Mangalore, the latter one visited the place, stayed here for one day and returned to Madras inspite of the villagers' humble request to provide him

with the possible comforts in the village. And last left
came this blow when the hospital was heard to be
transferred to Venoor ——. Thus the people were left
to their fate in the hard time of monsoon. They
cannot go to Karkala or Moodbidri which are at
a distance of fourteen miles from Naravi and
also due to the overflowing rivers in between.
Dear Sir, are these poor people condemned to undergo
these hardships in this Grainy season without getting
medical aid! Pandithjee, the Goverenment cannot
discourage the village people by withdrawing all the
facilities in the village. So I request you Sir, to
maintain the hospital at Naravi itself by appointing
a South Kanara Doctor or atleast to retain the
hospital at Venoor by appointing a proper Medical
man.

Sir, I must not waste your most precious
time for reading this poor letter, When the burning
questions of international affairs are in your head.
Please excuse the troubles.

The villagers completed a building work with their own contributions of Rs 6000/- to house the new Higher Sc. School. The District Board ignored the area and was not kind enough to give the building grant atleast. The people did their best in carrying out the Community Projects works: They have put up a new 1 1/2-mile road with their own effort. They also have repaired a 10 mile road. They have constructed a foot-bridge and also are conducting a night-school for the adults. The bridges and culverts promised by the Community Projects since one year have not been fulfilled. So they are left in an island

So the people are not lacking the spirit of Cooperation and self-help. So I hope our Government will do its best in cooperating with the villagers to fulfill the ideal of Democracy.

Yours Obediently

Sir, I cannot assure myself whether this letter will reach your hand if I send it through the proper channel as it has been written by a poor village Guide working in this area.

Yours obediently

From

S. D. Samrajya,
President,
Rural Dispensary Committee and Panchayat Board,
Shirthady, S.K.

To

The Honourable Minister Sri A. B. Shetty,
Minister for Public Health,
M a d r a s .

Through

M.Ps. and M.L.As., M.L.C.
South Kanara.

Honoured Sir,

On behalf of the villagers in and around Shirthady, I beg to submit that we are given to understand that the State Government has proposed to shift the Naravi Hospital to Venoor and the Venoor Rural Dispensary to Naravi. In this connection we are forced to submit this Memorandum as the above matter needs very careful consideration for the benefit of all.

With regard to the above matter I beg to submit that the location of the Hospital in Shirthady will be more advantageous and beneficial to the people of Malnad area around than at Venur, as proposed by the Government for the reasons stated below:-

(1) Shirthady is the centre for Malnad villages whereas Venoor is at a corner.

(2) The shortest walking distance between Naravi and Shirthady is about 4 to 5 miles whereas it is 12 miles from Naravi to Venoor and by road the distance between Naravi and Shirthady is 8 miles and it is 20 miles from Naravi to Venoor. Further there is no regular communication between Venoor

and Naravi. It is therefore clear that the location of a Hospital at Shirthady will be more beneficial to people of Naravi and other Malnad villages, than at Venoor.

(3) There is regular bus service from Mangalore and other parts, to Venoor but it is not the case with Naravi or Shirthady, which are practically isolated from the rest of the district on account of the Malnad rivers. Hence we are humbly of the opinion that the necessity of a first grade Hospital at Venoor is much less than it is for Shirthady.

(4) We already have a new Rural Dispensary building constructed at a cost of Rs16,000/- which can be easily converted into a first grade Hospital without incurring any further expenditure, whereas a building is yet to be constructed at Venoor if the Hospital is to be shifted there.

(5) In the rainy season, Naravi will be completely cut off from the rest of the District on account of its rivers whereas it is not the case with Shirthady which is accessible to them as there is only one river in between Naravi and Shirthady which is foot-bridged.

(6) There are about 15 villages around Shirthady at a radius of 6 miles and all of them will be much benefited if a Hospital is located at Shirthady.

(7) Shirthady though a place in the Malnad area is centrally situated as stated above and on account of its easy accessibility. Doctors if posted there will not grumble to stay as at Naravi.

(8) We too have a Rural Dispensary to be given in

exchange to Naravi Hospital.

(9) The people in and around Naravi have to pass through Shirthady on their way to important towns like Mudabidri and Venoor.

(10) Lastly, the present attendance in our Rural Dispensary makes us feel that we are justified in asking for a Hospital for us.

We therefore Sir, for the reasons stated above humbly request you to consider our demand and get ~~us~~ the Hospital ~~at~~ to Shirlady from Naravi, shifting our Rural Dispensary to ~~Venoor~~ Naravi, for which act of kindness, the Malnad villagers will ever remain grateful to you.

Yours faithfully,

Shirthady,
3.8.1954.

If it is proposed to shift the hospital from Naravi then it may be shifted to Sirhadi as it is close to Naravi and centrally situated

M.P. 3/8/54

Shirlady is midway between Naravi on one side and Venoor on the other. Hence, if the hospital is to be shifted from Naravi, the changes suggested in the petition are quite reasonable. Hospital at Shirlady will be in the centre with two rural dispensaries on either side as its wings. Shifting the hospital to Venoor will render it useless for the Malnad area which, the hospital is to be expected to serve the needs of

If the Hospital is to be shifted from Naravi it may be shifted to Shirlady. I agree with Sri. N. N. Suvarna

Coutinue at Naravi. I agree with Sri. Suvarna.

Sd/- 4.8.54 Sd/- M. L. A, Mangalore.

Personally I wish the hospital to be in the centre of shifted

A decent and suitable building is constructed specially for this purpose and I request the Govt. to appreciate this public effort.

To

The Hon'ble Sri A.B.Shetty,
Minister for Public Health,
Government of Madras.
Secretariat
Fort St. George,
M a d r a s.

--Humble representation submitted by the villagers of Naravi, Idu, Nooralvettu, Nellikar, Mantradi, Marodi, Badaga Karandur-Kokradi Savya, Kuthlur, Sulkeri, Navara, Sulkermogru, Pillya and Kudyadi in Karkal Taluk.

Respected sir,

Sub:- Government Hospital - Naravi village, Karkala Taluk - South Kanara District.

We, the undersigned villagers of the abovementioned villages beg to represent to you again in continuation of our representation dated 5-3-1954 to you as follows:-

1. The above villages are situated in Malnad area and--- Naravi is the centre of the said villages. In implementatio of the Forest Grievances Enquiry Committee appointed by the Government of Madras the Government were pleased to open a hospital in Naravi village, Karkal Taluk in South Kanara -- District on 6-6-1953. We are very grateful to the --- Government of Madras for this. We hear that there ~~are~~ was an agitation to shift the said hospital to Venoor on the ground that Doctors are not willing to reside at Naravi. We are now very much relieved by the news that the --- Government of Madras are pleased to keep the proposal of shifting the hospital to Venoor in abeyance for a year and

/2

that the Government have passed orders that the Government hospital at Naravi shall continue for another year. We are thankful to the Government for their decision in this regard. The Government were pleased to sanction a Government hospital at Naravi in consideration of the backward condition of the concerned villages, the non-availability of any medical -- facilities to them and after great investigation and after consulting expert opinion and the opinion of the officers of the -- Government including that of the District Collector and the District Medical Officer. The fact tha the Doctors are not willing to come to Naravi is no ground to close the -- hospital at Naravi and shift it to Venoor or some other --- place. We hear that there is also an agitation to shift the hospital to Venoor or Shirtadi and the government are -- pressed to do so. We beg to submit that there are rural -- dispensaries under the District Board at Venoor and Shirtadi. Moreover there are hospitals easily approachable from the said villages and there are road and bus communications from the said villages throughout the year.

On the other hand there are no such facilities to our villages as the Government are well aware of. The people of these villages being poor are not able to provide for any -- conveniences for themselves and they look to the Government to come to their rescue and save them.

We pray to the Government to drop the proposal, if -- any, of shifting the hospital from Naravi to some other place and to post a Medical Officer to Naravi at an early date. In this connection we beg to suggest to the Government to offer a special allowance as an inducement for the Medical Officer to serve in the Naravi Government Hospital. Our petition -- dated 5-3-1954 addressed to you may be read as part of this

13

representation. All communications in this connection may be sent to the address of sri K.Krishna Bhat, President, Panchayat Board, Naravi Post, Karkala Taluk, South Kanara District, one of the signatories among us.

Yours faithfully,

K. Krishna Bhatta

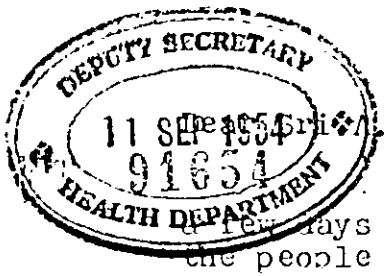
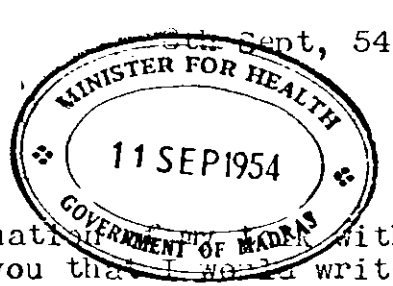
MADRAS-1

J.S., H.H. & L.A
10/9





35

Dated 9th Sept, 54

Dear Sri A.B.Shetty,

In continuation of my talk with you a few days ago wherein I told you that I would write to the people at Venoor for local cooperation and help in the construction of the building for the hospital, I have written to them and sent them also a draft of a Memorial to the Hon'ble Minister for Public Health praying for orders for the opening of the hospital on 2-10-1954, Gandhiji's birthday.(Copy enclosed)

I had informed you that the hospital at Venoor would serve the needs of a larger number of people and that Shirthady was not the proper place for the hospital. I consulted Mr. Molahally Shiva Rao who gave me the particulars as to the distance between Venoor and Naravi & Shirthady, the situation of the places etc. The number of persons is taken from the Census of 1951. You will please consider the matter sympathetically and fulfil the desires of the people at Venoor and its neighbourhood.

I am sending herein for your information the article appearing in P.S.P.organ "Vichara-Vani" about the hospital at Venoor.

So soon as I receive the Memorial copy, I shall contact you.

Hope you are all well. With regards,

Yours sincerely,

K Vittal Rao

Enc:2.

DRAFT OF MEMORIAL

Memorial to the Hon'ble Minsiter for Public Health

Through the District Medical Officer, South Kanara.

Sir,

On behalf of the public residing at Venoor and villages in the neighbourhodd, we beg to make the following representations for your kind consideration and favourable orders.

1. The Government was pleased to pass an order directing the opening of a hospital at Venoor in response to the representations made in this behalf. Pursuant thereto, the District Medical Officer of South Kanara visited Venoor to find a place for accomodating the hospital temporarily. He approved the CHATRAM in Venoor and it was decided to have the opening ceremony of the hospital on 15th August 1954 to synchronise with the rejoicing and celebrations of the Independence Day. Arrangements were made for the temporary quarters for the Assistant Surgeon, and his staff and we undertook to remove the hospital equipment at Haravi to Venoor before the 15th August without any expense to the Government in this connection. News spread of the happy event and people rejoiced at the action of the Government in supplying the long-felt need for a hospital at Venoor. But a week before the Independence Day, we were given to understand that under the orders of the Government the opening ceremony scheduled to take place on 15-8-54 had been cancelled. Words are poor vehicles to express the great sorrow and dejection felt by all of us at this unfortunate turn of events, and for no fault of ours. The Independence Day Celebrations were tinged with sadness. Accordingly we are constrained to approach you one again for favourable orders for the happy consummation of our hopes and desires

which relate directly to the health and wellbeing of the poor residents of Venoor and its neighbouing villages and plead that you may be pleased to order that the hospital at Venoor be opened on 2nd October 1954, the birthday of Mahatma Gandhi, the Father of the Nation who lived and died for the poor and downtrodden, and whose dream of Swaraj laid emphasis on the needs of Villages and its poor people.

In support of our representations for the location of the hospital at Venoor, we submit the following:

1 Venoor is in Malnad area and is centrally situated between Moodabidre and Belthangady, being 12 miles distant from these two places. There are hospitals at Moodabidre and Belthangdy to serve the needs of the persons in those localities and their neighbourhood. There is no hospital Government or Local Fund on a stretch of 24 miles to serve the needs of the people at Venoor and its neighbourhood.

2. In point of population also, Venoor and its neighbourhood has a population of 13,708 as per the census of 1951 as shown in the Appendix hereto

3. Venoor is situate on the main Road Moodabidre to Ujre on which busses ply daily all the year round as there are several daily services facilitating the transport and journey of patients resorting to the hospital for treatment.

4. Venoor is a famous place of pilgrimage having one of the three monolithic statues of Sri.Gomateshwara Masthabhishekam is performed periodically attracting large crowd of devotees from the District and outside necessitating sanitary and medical arrangements. The opening of the hospital at Venoor will meet the needs

on these occasions also.

5. Location of the hospital at Venoor will benefit a larger number of persons than its location at Naravi or Shirthady the latter place being situate on the Hosmane-Moodabidre Road, which is 11 miles in length passing through mostly forest growth.

6. Shirthady is about 6 miles from Moodabidre on the west. It is situate in the interior and lying on the unmetalled village road, impossible to negotiate even by carts on account of the slush of the monsoon and cut off from adjoining villages owing to numerous unfordable unbridged streams on the village roads, for at least 5 months in the year. The serviceableness of the hospital at Shirthady is thus negligible in point of population and transport facilities.

7. Secondly, Shirthady is situate 6 miles from Moodabidre, where there is a hospital. Two hospitals within 3 miles distance of each other is a luxury whereas in the case of Venoor, which is 12 miles from either Moodabidre or Belthangdy on either side, a hospital is a Necessity, and will serve effectively the needs of a large number of persons who have the advantage of bus and other transport facilities all the year round to reach Venoor for medical aid. We venture to submit that probably there is no paralell in the District or generally in the State for the location of 2 hospitals within a distance of 6 miles and there are no reasons to justify this unique preferential treatment to Shirthady at the cost of the people of Venoor and its neighbourhood whose needs are greater any day than the needs of Shirthady.

40

8. Maravi is situate on the Karkala-Guruvayenkere Road and within a distance of about 7 miles from Venoor on the south-west and is about 6 miles from Shirthady.

9. In conclusion we assure you of our whole-hearted cooperation in this behalf. In this connection we state that in or about the month of May 1954 a plan was prepared and sent to the authorities concerned for the demarcation and allotment of the Government land shown in the plan for the construction of the hospital building etc at Venoor. We have also given our earnest attention to the necessity of finding accomodation for the medical officer and the staff and in this connection we have planned for a cooperative society for the construction of houses to meet such needs at our cost. But it is also felt that unless the hospital is opened and starts working, no progress can be hoped for in carrying out the plans for the construction of houses etc.

Awaiting favourable orders early to have the opening ceremony of the hospital to be held on the auspicious day, 2nd October of this year bringing joy and happiness to the public of Venoor and its neighbourhood.

Yours faithfully,

40

8. Maravi is situate on the Karkala-Guruvayenkere Road and within a distance of about 7 miles from Venoor on the south-west and is about 6 miles from Shirthady.

9. In conclusion we assure you of our whole-hearted cooperation in this behalf. 49

To

The Hon'ble Sri A.B.Shetty,
Minister for Public Health,
Government of Madras,
Secretariat,
Fort St. George,
Madras.

Sir,

Sub:- Government Hospital - Naravi village Karkal Taluk - South Kanara District.

We, the undersigned villagers of the above-mentioned villages beg to represent to you again in continuation of our representation dated 5-3-1954 to you as follows:-

These above villages are situated in Malnad area and Naravi is the centre of the said villages. In implementation of the recommendations of the Forest Grievances Enquiry Committee appointed by the Government of Madras the Government were pleased to open a hospital in Naravi village, Karkala Taluk in South Kanara District on 6-6-1953. We are very grateful to the Government of Madras for this. We hear that there was an agitation to shift the said hospital to Venoor on the ground that Doctors are not willing to reside at Naravi. We are very much relieved by the news that the Government of

50

Madras are pleased to keep the proposal of shifting the hospital to Venoor in abeyance for a year and that the Government have passed orders that the Government hospital at Naravi shall continue for another year. We are thankful to the Government for their decision in this regard. The Government were pleased to sanction a Government hospital at Naravi in consideration of the backward condition of the concerned villages, the non-availability of any medical facilities to them and after great investigation and after consulting expert opinion and the opinion of the officers of the Government including that of the District Collector and the District Medical Officer. The fact that the Doctors are not willing to come to Naravi is no ground to close the hospital at Naravi and shift it to Venoor or some other place. We hear that there is also an agitation to shift the hospital to Venoor or Shirtadi and the Government are pressed to do so. We beg to submit that there are rural dispensaries unde the District Board at Venoor and Shirtadi. Moreover there are hospitals easily approachable from the said villages and there are road and bus communications from the said villages throughout the year.

On the other hand there are no such facilities to our villages as the Government are well aware of. The people of these villages being poor are not able to provide for any conveniences for themselves and they look to the Government to come to their rescue and save them.

We pray to the Government to drop the proposal, if any, of shifting the hospital from Naravi to some other place and to post a Medical Officer to Naravi at an early date. In this connection we beg to suggest to the Government to offer a special Allowance as an inducement for the Medical Officer to serve in the Naravi Government

51

Hospital. Our petition dated 5-3-1954 addressed to you may be read as part of ..... representation. All communications in this connection may be sent to the address of sri K.Krishna Bhat, President, Panchayat Board, Naravi Post Karkala Taluk, South Kanara District, one of the -- signatories among us.

Yours faithfully,

Dated 28-8-1954.

Madras.

Humble representation submitted by thevillagers of Naravi, Idu, Nooralbettu, Nellikar Mantradi, Marodi, Kokradi, Badaga Karandoor, Savya, Kuthlur, Sulkeri Navara, Sulkerimogru, Pilya and Kokradi in Karkal Taluk.

Dated 29-8-1954.

Respected Sir,

Sub: Government Hospital - Naravi village - Karkala Taluk - South Kanara District.

We, the undersigned villagers of the above-mentioned villages beg to represent to you again in continuation of our representation dated 5-3-1954 to you as follows:-

1. The above villages are situated in Malnad area and Naravi is thecentre of the said village. In implementation of the recommendations of the Forest Grievances Enquiry -- Committee appointed by the Government of Madras, the Government were pleased to open a hospital in Naravi village, Karkal Taluk in South Kanara District on 6-6-1953. We are very -- grateful to the Government of Madras for this. We hear that there was an agitation to shift the said hospital to Venoor on the ground that Doctors are not willing to reside at -- Naravi. We are now very much relieved by the news that the Government of Madras are pleased to keep the proposal of -- shifting the Hospital to Venoor in abeyance for a year and

that the Government have passed orders that the Government Hospital at Naravi shall continue for another year. We are thankful to the Government for this decision in this regard. The Government were pleased to sanction a Government Hospital at Naravi in consideration of the backward condition of the concerned villages, the non-availability of any medical -- facilities to them and after great investigation and after consulting expert opinion and the opinion of the officers of the Government including that of the District Collector and the District Medical Officer. The fact that the Doctors are not willing to come to Naravi is no ground to close the hospital at Naravi and shift it to Venoor or some other -- place. We hear that there is also an agitation to shift the hospital to Venoor or Shirthadi and the Government are pressed to do so. We beg to submit that there are rural dispensaries under the District Board at Venoor and Shirtadi. Moreover there are hospitals easily approachable from the said villages and there are road and bus communications from the said --- villages throughout the year.

On the other hand there are no such facilities to our village as the Government are well aware of. The people of these villages being poor are not able to provide for any conveniences for themselves and they look to the Government to come to their rescue and save them.

We pray to the Government to drop the proposal, if any, of shifting the hospital from Naravi to some other place and to post a Medical officer to Naravi at an early -- date. In this connection we beg to suggest to the ---- Government to offer a special Allowance as an inducement for the Medical Officer to serve in the Naravi Government Hospital. Our petition dated 5-3-1954 addressed to you may be read as

56

part of this representation. All communications in this connection may be sent to the Address of sri K.Krishna Bhat, President, Panchayat Board, Naravi post, Karkala Taluk, South Kanara District, one of the signatories among us.

Yours faithfully,

Dated 29-8-1954.

K. Krishna Bhatta.

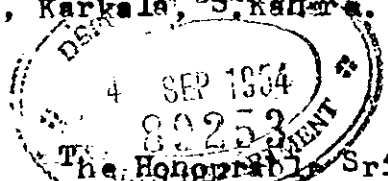
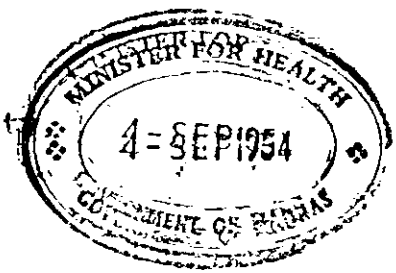
V.S.Adhikari, B.A., LL.B.,
Vakil, Karkala, S.Kanara. Dated 1-9-1954.





To,

The Honourable Sri A.B.Shetty,
Minister for Public Health,
Government of Madras,
Secretariate, Madras.

Dear Mr.Shetty,

In the matter of the Government Hospital at Naravi you might have received recently some further representations from the Villagers thanking the Government for staying the proposal to shift the Hospital elsewhere and requesting you to post a Medical Officer to the place at an early date. I feel that the Government having considered the necessity to have a Government Hospital in the Malanad Region of Naravi after taking expert technical opinion it does no credit to the Government to close the hospital on the ground that the Medical Officers refuse to stay at Naravi. I am sure if some special allowance is granted Medical Officers will be willing to serve in the Naravi Hospital. If Central Government aid is

5/4/54

forthcoming I am sure that the State Government will take advantege of it also and in view of the peculiar conditions of the villages I request to you to do what you can by directing a Medical Officer to be posted to the place at an early date even by paying some special allowance and increased salary to attract the medical Officers.

I remain,
Yours sincerely,

M S Aiyar

23SEP1954

Humble representation submitted by:

The villagers of Naravi, Idu, Nooralvettu, Nellikar, Mantradi, Marodi, Kokradi, Savya, Kuthlur, Sulkeri, Navara, Sulkerimogru, Pillya and Kudyadi villages in Karkal Taluk, South Kanara District.

Respected sir,

Sub: Government Hospital - Naravi village - Karkala Taluk Taluk - South Kanara District - Appointment of a Medical Officer, - requested.

In continuation of our application submitted on -54 to you we represent as follows for your kind consideration an favourable orders.

The Government were pleased to open a hospital in Naravi village, Karkal Taluk, in South Kanara District on 6-6-1953. since from 6-6-1953 for three months only there was a Civil Assistant Surgeon working in this Hospital. From that day onwards the Government Hospital was completely closed for want of a qualified M.B.B.S.Doctor. There is a fact that the M.B.B.S. doctors are not willing to work in these -- village areas. Hence on account of this we the villagers are suffering a lot for want of a doctor. Now we come to know that the primary health centre at Hebri of Karkala Talu south Kanara District, under the Community project, was also closed for want of a M.B.B.S. Medical officer. Recently we,

63

-2-

the villagers understood the Government has been pleased to appoint a G.C.I.M. Medical Officer in the place of a M.B.B.S. doctor for the above primary Health centre.

Hence, we, the villagers, also request you to appoint atleast a G.C.I.M. Medical graduate for ~~xxxxxx~~ the Government Hospital at Naravi as M.B.B.S. Medical graduates are not coming forward to work in this area and save the villagers from the great difficulty for want of adoctor.

Early and favourable orders may kindly be passed to appoint a G.C.I.M. Medical gradeate in the Hospital.

Dated 18-9-1954.

Yours faithfully,
K. Krishna Malla.
President, Panchayat Board,
Naravi. S. Kanara.

To

The Secretary to Government, Health, Education and
Local Administration Department, M a d r a s.

Ref.No.58389 M-54, dated 27th October, 1954.

Sub: Medical Institutions - South Kanara District - Government Dispensary, Naravi - Transfer to some other place.
Ref: 1. Government Memo No.80940 H.II/54-1 Health dated 13-8-54.
2. Government Memo No.89253 H.I/54-1 Health d/10-9-1954.
3. Government endorsement No.89253 H.I/54-2 Health dated 28-9-1954.

The Collector of South Kanara has reported that Naravi is the Centre of all Malnad villages and a hospital at Naravi is quite essential. The District Medical Officer, South Kanara has also recommended that the Government Dispensary may be retained at Naravi. For approximately 4 months in every year, during the monsoon, Naravi is completely cut off from the rest of the district on account of rivers all round with no bridges. Hence the stationing of an Assistant Surgeon in this place is very essential to attend to any emergencies. In the peculiar circumstances of this place, I recommend that the Government dispensary may be retained at Naravi and a special pay of Rs.50/- per mensem may be sanctioned to the holder of the post of Assistant Surgeon so that the grant of this special pay may serve as an incentive for medical officers, to take up appointment at Naravi which is a remote interior place cut off from all amenities.

2. In letter dated 1-9-1954 from Sri M.S.Adhikari, Karkal (copy sent with the Government Memo second cited) mention has been made of the State Government taking advantage of Central Government aid, if the same is forthcoming. In this connection a reference is invited to correspondence ending with Government (late Development Department) Memo No. 17390 (D) P and D I/51-3 dated 11-7-51, wherein it was stated that the preparation of medium and long term plans for the Malnad areas had been dropped.

3. In the petition dated 18-9-54 from the President, Panchayat Board, Naravi (copy forwarded with Government endorsement third cited) it has been suggested that a G.C.I.M. Medical Officer may be posted to Naravi. G.C.I.M. Medical Officers are not eligible for appointment as Assistant Surgeons in the Madras Medical Service; but even if the dispensary were to be one of Indigenous Medicine, there will be the same difficulty in securing the services of a G.C.I.M. Medical Officer for appointment at Naravi, as a medical graduate of Indigenous medicine will also feel reluctant to serve in a place like that, without any inducement.

4. The Memorial from the residents of Venoor village addressed to the Minister for Health is forwarded herewith.

Yours faithfully,

for Director of Medical Services.

DRAFT OF MEMORIAL

Memorial to the Hon'ble Minsiter for Public Health

Through the District Medical Officer, South Kanara.

Sir,

On behalf of the public residing at Venoor and villages in the neighbourhodd, we beg to make the following representations for your kind consideration and favourable orders.

1. The Government was pleased to pass an order directing the opening of a hospital at Venoor in response to the representations made in this behalf. Pursuant thereto, the District Medical Officer of South Kanara visited Venoor to find a place for accomodating the hospital temporarily. He approved the CHATRAM in Venoor and it was decided to have the opening ceremony of the hospital on 15th August 1954 to synchronise with the rejoicing and celebrations of the Independence Day. Arrangements were made for the temporary quarters for the Assistant Surgeon, and his staff and we undertook to remove the hospital equipment at Naravi to Venoor before the 15th August without any expense to the Government in this connection. News soread of the happy event and people rejoiced at the action of the Government in supplying the long-felt need for a hospital at Venoor. But a week before the Independence Day we submit the [illegible], we were given to understand that under the orders of the Government the opening ceremony scheduled to take place on 15-8-54 had been cancelled. Words are poor vehicles to express the great/dejection sorrow and felt by all of us at this unfortunate turn of events, and for no fault of ours. The Independence Day Celebrations were tinged with sadness. Accordingly we are constrained to approach you one again for favourable orders for the happy consummation of our hopes and desires

which relate directly to the health and wellbeing of the poor residents of Venoor and its neighbouing villages and plead that you may be pleased to order that the hospital at Venoor be opened on 2nd October 1954, the birthday of Mahatma Gandhi, the Father of the Nation who lived and died for the poor and downtrodden, and whose dream of Swaraj laid emphasis on the needs of Villages and its poor people.

In support of our representations for the location of the hospital at Venoor, we submit the following:

1. Venoor is in Malnad area and is centrally situated between Moodabidre and Belthangady, being 12 miles distant from these two places. There are hospitals at Moodabidre and Belthangdy to serve the needs of the persons in those localities and their neighbourhood. There is no hospital Government or Local Fund on a stretch of 24 miles to serve the needs of the people at Venoor and its neighbourhood.

2. In point of population also, Venoor and its neighbourhood has a population of 13,708 as per the census of 1951 as shown in the Appendix hereto

3. Venoor is situate on the main Road Moodabidre to Ujre on which busses ply daily all the year round as there are several daily services facilitating the transport and journey of patients resorting to the hospital for treatment.

4. Venoor is a famous place of pilgrimage having one of the three monolithic statues of Sri.Gomateshwara Masthabhishekam is performed periodically attracting large crowd od devotees from the District and outside necessitating sanitary and medical arrangements. The opening of the hospital at Venoor will meet the needs

on these occasions also.

5. Location of the hospital at Venoor will benefit a larger number of persons than its location at Naravi or Shirthady, the latter place being situate on the Hosmane Moodabidre Road, which is 11 miles in length passing through mostly forest growth.

6. Shirthady is about 6 miles from Moodabidre on the west. It is situate in the interior and lying on the unmetalled village road, impossible to negotiate even by carts on account of the slush of the monsoon and cut off from adjoining villages owing to numerous unfordable unbridged streams on the village roads, for at least 5 months in the year. The serviceableness of the hospital at Shirthady is thus negligible in point of population and transport facilities.

7. Secondly, Shirthady is situate 6 miles from Moodabidre, where there is a hospital. Two hospitals within 6 miles distance of each other is a luxury whereas in the case of Venoor, which is 12 miles from either Moodabidre or Belthangady on either side, a hospital is a Necessity, and will serve effectively the needs of a large number of persons who have the advantage of bus and other transport facilities all the year round to reach Venoor for medical aid. We venture to submit that probably there is no paralell in the District or generally in the State for the location of 2 hospitals within a distance of 6 miles and there are no reasons to justify this unique preferential treatment to Shirthady at the cost of the people of Venoor and its neighbourhood whose needs are greater any day than the needs of Shirthady.

8. Naravi is situate on the Karkala-Guruvayenkere Road and within a distance of about 7 miles from Venoor on the south-west and is about 6 miles from Shirthady.

9. In conclusion we assure you of our whol hearted cooperation in this behalf. In this connection we state that in or about the month of May 1954 a plan was prepared and sent to the authorities concerned for the demarcation and allotment of the Government land shown in the plan for the construction of the hospital building etc at Venoor. We have also given our earnest attention to the necessity of finding accomodation for the medical officer and the staff and in this connection we have planned for a cooperative society for the construction of houses to meet such needs at our cost. But it is also felt that unless the hospital is opened and starts working, no progress can be hoped for in carrying out the plans for the construction of houses etc.

Awaiting favourable orders early to have the opening ceremony of the hospital to be held on the auspicious day, 2nd October of this year bringing joy and happiness to the public of Venoor and its neighbourhood.

Yours faithfully,

N. Dis No 1152/54 A/15-9-54.

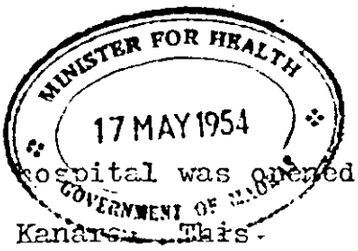
Health

Secretary, H.E.&.L.A.



Sometime ago a Government hospital was opened at Naravi, Karkal taluk, South Kanara. This hospital is remaining closed for want of a doctor. It was proposed to transfer this hospital to Venur and shift the rural dispensary there to this place in which case it may probaly be easier to get doctors for both places. This may be given early consideration.

11/5/54

The selection of Naravi for the location of the Government Dispensary seems to have been accidental. From the papers leading to the issue of G.O.No.3116, Health, dated 4th October 1952 sanctioning the establishment of a Government Dispensary at Naravi, I am not able to find any special reason for selecting Naravi. The then D.M.S. recommended that a dispensary might be established there, presumably because it is in the centre of the Malnad villages as stated by the Collector. Since the establishment of this Dispensary in October 1952 its work has been very unsatisfactory. After much difficulty, one Dr. Menon was posted to that place and he worked there from - 3-6-1953 to 14-7-1953. Then on his representation, he was transferred to the Headquarters Hospital, Mangalore. Since then the post could not be filled up. In February 1954, one Dr. Gopalan, one of the newly appointed temporary Assistant Surgeons was posted to the Dispensary; but he expressed his inability to join the post for want of even the minimum facilities in that place. It is understood from the office of the D.M.S. that no Assistant Surgeon is willing to join this post as it is impossible to stay there, with the result the post is vacant from 14-7-1953.

pp. 1-2 c.f.

pp. 17-22 c.f.

P. 37 c.f.

2. The present representation of the President Venur Firka, Project Committee and the counter-representation of the villagers of Naravi do not seem to have been considered seriously either by the Collector or by the D.M.S. and they have recommended that the Government Dispensary may be retained at Naravi for the simple reason that it is a central place for Malnad villages. From the facts stated in para 1 above, it will be seen that the running of the Government Dispensary at Naravi will be practically impossible. In view of these facts and in view of the reasons given by the President of the Venur Firka Project Committee at pages 1-2 c.f., it seems better to transfer the Government Dispensary at Naravi to Venur Firka. There is a rural dispensary now at Venur. This can be transferred to Naravi. It may serve the Malnad area.

3. In the circumstances stated above it is for orders whether the D.M.S. may be asked to transfer the Government Dispensary from Naravi to Venur and the rural dispensary from Venur to Naravi.

SPECIAL.

J.S., H.E.&L.A.:

Representations have been made to me from South Kanara urging that the hospital at Naravi may be shifted to Shirthadi instead of to Venur. Until this matter is further considered and decided, the D.M.O. may be asked telegraphically to see that the opening of the hospital at Venur is held up.

[Issued as T.M. dated 6.8.54]

II

J.S., H.E.&L.A.:

'Has anybody been posted to the ~~M~~ Govt. Hospital or dispensary at Naravi, Karkal taluk (S. Kanara)? As it is an interior village, medical men seem to be unwilling to go there or continue to serve there. It will be better to post a man belonging to the district, even a G.C.I.M.

MINISTER FOR HEALTH

From the D.M.S. Ref. No. 58389 M/54 dated 27-10-54.
Sri K.P. Mukunda Prabhu d 2-11-54

The file relates to the location of Govt. dispensary in the Malnad areas in South Kanara District. In G.O. 3116 Health dated 4-10-1954, the Govt. sanctioned the establishment of a Govt. dispensary at Naravi for rendering medical aid in the Malnad area in South Kanara District. The Govt. also accepted the offer of Sri D. Montaeiro to locate the Govt. dispensary in his building free of rent for one year and on a payment of rent of Rs. 10/- per mensem thereafter till a suitable building became available. On the representation made by the President of the Venoor Firka Project Committee, Venur, the Govt. ordered the transfer of the Govt. dispensary at Naravi to Venur and transferred the rural dispensary at Venur to Naravi and orders were issued accordingly in G.O. 1736 Health, dated 24-6-1954. In the meanwhile, representations were received urging that the ~~hospital~~ dispensary at Naravi may be shifted to Shirthady instead of to Venur and the D.M.S. was asked to hold up the opening of the ~~hospital~~ dispensary at Venur till a final decision is arrived at in the matter. Representations were received from the residents of Shirthady urging the location of the dispensary at their place instead of at Venur and ~~locate~~ for the transfer of the rural dispensary ~~of~~ at Shirthady as Naravi. Similar petitions have been received from the residents of Venur and Naravi requesting the location of the dispensary in their respective places. The remarks of the D.M.S. on page 64 c.f. may be perused. The D.M.S. is in favour of the retention of the Govt. dispensary at Naravi, as it is completely cut off from the rest of the areas in the district for four months in the year. He recommends that in order that

there may be an incentive for the Asst. Surgeons to take up the appointment at Naravi, a special pay of Rs. 50/- p.m. may be sanctioned The D.M.S. considers that G.C.I.M. Medical officer also will not take up the appointment at Naravi as a medical graduate of indigenous medicine will also feel reluctant to serve in a place like Naravi without any inducement.

2/ The Govt. dispensary at Naravi was ordered to be transferred to Venur for the reasons explained in the typed notes on pp. 3-4 N.F. of G.O. 1736 Health, dated 24-6-1954. There was difficulty in getting medical officers posted to that place. The dispensary worked from 3-6-1953 to 14-7-1953 and then was vacant afterwards. Again in February 1954 one medical officer was posted but he expressed his inability to join the post for want of even the minimum facilities in that place. But as the D.M.S.is strongly in favour of the retention of the Govt. dispensary at Naravi, it is for orders whether the recommendation of the D.M.S. which has also been agreed by the Collector of South Kanara may be approved and the proposal to grant a special pay of Rs. 50/- p.m. may also be agreed to in this Dept.

4/ Attention is solicited to the minutes of M.(H.) on p. 1 ante and page 76CF. It is understood from the D.M.S.'s office that no medical officer has been posted to the dispensary at Naravi.

8.11.54 With reference to 'A' above it is submitted that Dr. K. Nagappa Shetty G.C.I.M., Karkala, South Kanara District has expressed his willingness to take up appointment as Medical Officer

at Naravi — Vide p/c-f of the linked file
But it may be mentioned that Gr-C-I-M
candidates are not eligible for appointment
as Medical Officers in regular Govt
dispensaries. Attention is invited in this
connection to G.O: No: 3828 Health dated
31-10-53. In view of the difficulty in
securing the services of a qualified Medical
Officers for appointment in the Dispensary
at Naravi it is for consideration whether
Dr. Shetty may be appointed as M-O
as a special case. For orders.

NRR
8-11-54

The scale of pay may be Rs 100-5-150-10-200. (P)
If this is agreed to as a
special case, there will be no
need to allow a special pay
of Rs 50/- as proposed by Public
D.M.S.

VK
8-11-54 A.S/11/ JS

Dr. Nagappa Shetty's appt will
depend upon the retention or otherwise of
the dispensary at Naravi, and
may therefore be considered after that
question is settled

My
8/11/54 JS

Both the Govt. of Ekanath. The
DMS are strongly of the view that the
Dispensary should be at Naravi -
their recommendation may be appd

[1

Dr Nagappa Shetty may be posted as a Special Case in the scale suggested at A on page
